EXPERIENCE

Deloitte Consulting India Pvt Ltd, Hyderabad – Consultant

Oct 2024 - Present

Coupa Consultant with Techno-functional role handling the enhancements, configurations, integrations with ERP & Non ERPs, identifying value adds, automation and resolving production issues.

Role and Responsibilities:

- Coupa Administrator – worked on configurations, master data, approval chain requests/blockers, PO customizations, Chart of Accounts, Custom Objects, etc.
- Identified recurring issues and automated contract cancellation process with compliance to the governance process, thereby saving 30% manual efforts.
- Identified and presented an opportunity to implement Coupa SIO (Smart Intake Orchestration) for non-regular users, resulting in a 50% reduction in licensing costs.
- Providing L3 support for complex technical challenges, identifying the root causes and driving resolution.
- Enabled cXML invoicing for multiple vendors and provided technical support from initial configuration to smoke testing in production.
- Identified bugs and enhancement opportunities for GHX (For EDI transactions) and Hypatos (OCR SAAS application for pdf invoice extraction) and their integrations with Coupa.
- Configured SFTP invoicing for multiple vendors and provided an excel – macro enabled template to ease the process of data loading for suppliers.
- Created contract forms and custom fields based on the business requirements.
- Troubleshoot production issues to help and coordinate with End users.
- Created SOPs and mentored new team members to help them with the day to day operations.
